

Nationals Was Amazing!

SOCA hosted the 2022 **EXCA** Championship Extreme National Cowboy Race at Celebration Arena in Decatur, AL and it was an amazing event! We can't say thanks enough to the judges, sponsors, announcer, scribes, timers, gate keepers and everyone else who helped put this event together. The competition was deep (with over 130 entries) and tough with many world and national champions, as well as newcomers to the sport. Awesome people, amazing horses and great fun!

Vetericyn's Latest Addition: The Equine Mobility Line

Hooves are the foundation of the horse and the old adage 'no hoof, no horse,' rings true across the equine industry, whether it's your pleasure show pony, your athletic, hardworking performance horse, or your beloved, retired pasture ornament, healthy hooves make for more sound horses. That's why after much consideration, the team at Innovacyn, Inc., developed three new Vetericyn® equine products, to aid in keeping horses sound, comfortable and moving. The Vetericyn® Mobility Line of products includes: Vetericyn®Liniment, Vetericyn® Hoof Care, and Vetericyn® Hoof Soak.

Vetericyn® Liniment is a menthol blend that melts on contact for fast-acting relief to refresh tired muscles. It melts on contact and penetrates quickly to reduce swelling and pain of sore muscles and joints, helping to relieve stiffness and soreness caused by strenuous activity. Formulated with skin conditioners like peppermint, sunflower, and flower extracts, along with a proprietary blend of botanicals and menthol, Vetericyn® Liniment is a gel-lotion that is gentle on the skin while helping to stimulate micro-circulation and blood flow for faster recovery time.

Vetericyn® Hoof Care is designed for daily treatment of the sole and frog to combat damage caused by thrush, white line separation, and seedy toe. Vetericyn Hoof Care helps alleviate the buildup of harmful microorganisms on hooves than can cause odor and lameness. This unique formula deeply penetrates the hoof layers and crevices to purge and remove pathogens that cause hoof deterioration and breakdown. Vetericyn Hoof Care is formulated with a bright blue dye, an indicator, so you can see the coverage and know when it's time to reapply. Simply put, it's tried, tested, and a true-blue solution horse owners can rely on!

Vetericyn® Hoof Soak, is a proven formula that effectively purges and removes harmful microorganisms, inside the hoof wall, that cause abscesses and white line separation, resulting in lameness. And, Hoof Soak is easy to use! After thoroughly cleaning the horse's hoof of dirt and debris, simply mix one, 30 gm jar of Vetericyn® Hoof Soak with one gallon of water and stir until well dissolved. Then place the hoof in the soaking solution fully submerging the hoof, using a bucket, bag, or medicine boot, and soak for 40-60 minutes. There is no need to rinse the hoof after soaking and it's guaranteed with just one application, when used as directed! Watch this resourceful barn trick to ease the task of soaking a horse's hoof, on the web at: https://www.youtube.com/watch?v=qh7-2umOATw
You'll see the difference Vetericyn® Hoof Soak makes for your horse's hooves! Improving hoof health, one step at a time.

Remember, hoof care is one of the most important aspects to your horse's health and wellbeing. With a combination of proper equine nutrition, a safe, well managed stable environment, and when needed, quality equine mobility products, you'll be serving the foundation requirements for your horse's soundness. Remember, whether it's a relaxing ride on the trail or you're asking the most out of your four-legged athlete in the arena or on the track, Vetericyn® Mobility Line of animal wellness products are here to help improve the overall quality health your horse. Hoof health matters and the folks at Vetericyn understand and care about your horses' hooves and overall daily wellness.

Six Health Benefits of Horseback Riding

As riders and horse owners, we know beyond a doubt that our horses are good for us. From the fitness benefits of riding and barn work to the way horses lift our spirits and ground us, most horsemen and women would likely agree that a life with horses is healthier than a life without them. From increasing your cardiovascular health to helping you relax, horses can influence both your physical and mental health in ways you might not realize. Here are six health benefits of horseback riding you get every time you saddle up:

- Improves cardiovascular health. A study commissioned on behalf of the British Horse Society found that riding is indeed a good cardiovascular workout. Even just a half hour of riding is considered "moderate exercise," said BHS PR executive Megan Hawkins, "while trotting exerts more energy than playing badminton."
- Increases core strength. Sitting tall, squeezing your horse's sides ignites your core muscles, which are imperative for balance and posture. Even the most leisurely rides require a notable effort from your core. More advanced maneuvers require even more core strength, better balance and endurance.
- Burns calories. In a Texas A&M University study, researchers focused on the amount of energy expended during high-intensity horseback riding. But you don't need to be roping cattle to burn calories. Lifting your saddle on and off, carrying buckets, lifting hay, grooming — all these regular barn chores and activities burn plenty of calories.
- Lowers blood pressure. One of the benefits of regular exercise is lowered blood pressure — even light riding or barn work done regularly counts. Plus, just being around animals has been shown to do that as well. Knowing your blood pressure numbers and managing high blood pressure are two important things you can do to prevent heart disease and stroke states the American Heart Association.
- Helps make decisions. While riding, you're constantly making decisions, such as whether to speed up or slow down, what paths to take or avoid as well as when to take a break. Exercising those decision-making skills can translate into the rest of your life, too.
- Feels relaxing. The horse's natural movement is calming, so when you and the horse walk or ride together, your bodies are in sync..
